Program: Certificate, Digital Media
Minimum Credits Required: _____

Certificate, Digital Media

The Digital Media Technology Associate of Applied Science degree plan focuses on three areas of concentration as they apply to web/graphic design, interactive media design, and instructional design. This degree plans focus is to provide students with the necessary entry level/intermediate skills required for positions in the current digital industry. Students will explore various current industry client side scripting and programming languages; as well as be able to create and design for various interfaces and instructional materials. This program will introduce latest design issues and best practices as they relate to all types of digital media.

Related Degrees and Certificates: Associate of Applied Science in Digital Media , Marketable Skills Achievement Award, Web Designer
